

Miele

Product overview:

Washer-extractors and tumble dryers, flatwork ironers

Miele Professional. Immer Besser.

New 2021: SmartBiz
with 7 kg load capacity

Laundry machines from Miele Professional

Never be satisfied with less

With Miele Professional, you are choosing top-class quality. This applies not only to our machines which reliably live up to expectations on a daily basis and give rise to the great trust professional users place in the Miele brand. Miele's proverbial quality goes far beyond this. As a family-run company, now in its fourth generation, our actions, as always, still stem from a sense of responsibility for our products and processes and towards our employees, business associates and the environment.

Reliability and responsibility form the bedrock of Miele's entrepreneurial activities and find expression in many different ways. Clients benefit from innovations 'Made in Germany' which set standards in the industry as well as from a product design which has received multiple awards for ergonomics and functionality, and from low running costs. Carefully matching systems from Miele Professional cover a wide range of requirements and offer the peace of mind of an efficient and award-winning service network. For you as a professional user, there is simply no reason to be satisfied with less!

Dr. Markus Miele

Executive Director and Co-Proprietor

Dr. Reinhard Zinkann

Executive Director and Co-Proprietor

Top performance for all lines of business

That's why professional users opt for Miele Professional

Perfect results

Our laundry machines feature high-performance programme packages to cater for channel-specific challenges, e.g. safe disinfection in the event of an outbreak of a notifiable disease. In Miele's unique honeycomb drum, even the most delicate of fabrics are given the gentlest of treatment, whilst our flatwork ironers guarantee a first-class finish.

Efficient processes

Miele's proverbial quality stands for fast and smooth processes. With their high-quality, low-maintenance design, our laundry machines are the reliable workhorses in a commercial working environment. An ergonomic design makes for fast and simple operation.

Economic use of resources and improved economics

With low costs throughout a machine's entire life cycle (total cost of ownership), our long-lasting laundry machines are an investment from which you will reap ample rewards – and thanks to numerous innovations will help save valuable resources. The EcoSpeed wash rhythm, for instance, achieves excellent wash performance with a minimum of water, whilst our tumble dryers allow the use of the cheapest method of heating available on site.

A reliable contact

The right response to all your questions: Our laundry machines are centre-piece in a holistic solution including carefully selected accessories and a wide range of advisory and after-sales services. With Miele Professional as a reliable partner, all professional challenges can be met efficiently.

SmartBiz washing machine

The new entry line into the world of professional laundry care

Miele Professional has redefined its model series representing an entry into the world of commercial laundry care by adding a new highlight: the new SmartBiz model range.

SmartBiz, perfect for your applications

- Frequency of use: 1-3 cycles per day
- Light, everyday soiling, e.g. workwear, sportswear, laundry from child-care centres

Top-notch performance

- Large drum volume for 7 kg of laundry
- Short cycles of as little as 79 mins. (washing), 125 mins. (drying)

Economic with electricity and water

- Energy efficiency rating A+++
- Dryers with highly efficient heat-pump system

100% Miele quality

- Commercial quality, washing machines designed for 10,000 programme cycles/15,000 operating hours
- Conforms to Machinery Directive

Fast and simple installation

- Supply lead and 10A plug for plug-and-play installation
- Space-saving installation as washer-dryer stack

Note

SmartBiz cater for up to 3 loads per day. With numerous special programmes to deal with large mountains of laundry and up to three load cycles per day, Little Giants remain the workhorses in Miele's range.

SmartBiz washing machine

Load capacity 7 kg / DirectSensor controls

Washing machine	PWM 300
User interface	DirectSensor
Load capacity [kg]	7
Drum volume [l]	64
Max. spin speed [rpm]	1,400
g-factor/Residual moisture** [%]	535/49
Cycle time* [mins.]	79
Type of heating	EL
Drainage [LP DN 22]	LP
Front colour / material	LW
External dimensions H/W/D [mm]	850/596/636

EL = Electric, LP = Drain pump, LW = Lotus white, enamelled, * Duration in Cottons 60°C, cold water, ** Residual moisture presuming hot rinse in last rinse cycle

DirectSensor controls

- Rotary control
- Text graphics in local language on fascia
- The display provides information on the temperature, spin speed and countdown time

Highlights

- Commercial machine with supply lead and 10A plug (Plug & Play)
- Efficient: Up to 3 cycles per day
- Rugged: Designed for 10,000 programme cycles/15,000 operating hours
- Exclusive to Miele: Gentle and thorough fabric care with honeycomb drum
- Energy efficiency rating A+++
- Installation as space-saving washer-dryer stack possible
- Safe operation according to Machinery Directive for commercial applications

Optional accessories

- Plinths for ergonomic loading and unloading

The new LITTLE GIANTS

Top performance in compact form

In the compact class, washing machines and dryers from the LITTLE GIANTS range have for decades been the tried-and-tested workhorses in all applications requiring fast and efficient laundry care several times a day. Installed as a washer-dryer stack on a footprint of less than 0.5 m², LITTLE GIANTS represent the perfect comprehensive solution for a compact on-premise laundry.

Benefits that pay off on a daily basis

- Fast: Up to 8 kg washed in only 49 minutes
- Unambiguous: Text displays in up to 32 languages

More economical and powerful than previous version

- The washing machines require 22% less water and 28% less energy.
- Cycle times on the PDR 507 HP heat-pump dryer have been cut by one-third to now less than 60 minutes.
- Whilst casing dimensions have remained unchanged, washing machines and tumble dryers now have a load capacity increased by 25%.
- Irrespective of the load size (7 or 8 kg), the wash cycle lasts only 49 minutes.

Label programmes (PERFORMANCE series)

- Washing machine: A+++ energy efficiency rating
- Heat-pump dryer: A++ energy efficiency

Connectivity (PERFORMANCE PLUS series)

- Miele WiFiConne@ct interface
- MielePro@mobile app for iOS (Apple) and Android*

* Requires separate software. Availability may vary, depending on the software version and the country. For further information, contact your Miele dealer or call up www.miele.com.au/professional.

LITTLE GIANT washing machines

7kg load / M Select controls

PERFORMANCE

Washing machine	PWM 507	PWM 507 Hygiene
User interface	M Select	M Select

- Marine model version**
- Connection options for use in shipboard/offshore applications

* Use of separately available accessories and software charged to customers. Availability may vary, depending on the country. For further information, contact Miele www.miele.com.au/professional.

OCTOPLUS

Washing machines and dryers
8-10 kg load capacity

The technology on board the OctoPlus model range is derived directly from large machines for commercial laundries. Features such as a gaiterless suspended drum unit on washing machines make these large-volume laundry machines perfectly suited to washing large batches of laundry on a daily basis.

Benefits that pay off on a daily basis

- Fast: Up to 10 kg washed in only 53 minutes
- Tailored to needs: Programme design for simple, universal applications
- Fits anywhere: Washer-dryer stack requiring less than 0.6 m² of floor space

OCTOPLUS washing machines

8-10 kg load capacity / Profitronic L Vario

- Display showing all information in local language
- Safe work processes through multi-stage user interface
- Individual adjustment of dispensing

Highlights

- Exclusive to Miele: Gentle and thorough fabric care with honeycomb drum
- Safe disinfection through numerous disinfection programmes, including RKI-listed programmes

Optional accessories

- Plinths for ergonomic loading and unloading
- Payment systems for pay-by-use operation

Highlight: PWT 6089 Vario

Space-saving washer-dryer stack occupying less than 0.6 m² floor space

THE BENCHMARK MACHINES

Setting standards in performance and efficiency

The Benchmark machines from Miele Professional meet the highest demands placed on laundry and textile care with ease. They also offer unique innovations and exclusive features subscribing to Miele's proverbial quality standards - naturally in combination with first-class economics and the protection of natural resources.

Benefits that pay off on a daily basis:

- Effortless: OneFingerTouch safely locks the large door at the touch of a finger
- Perfect rhythm: The EcoSpeed wash rhythm provides even faster results

Outstanding efficiency

Benchmark Machines allow you to profit from numerous innovations aimed at the highly effective use of resources. The optimised design of the outer drum alone has resulted in water consumption being cut by up to 20% and electricity consumption savings of as much as 30%.

BENCHMARK washing machines

13–20 kg load capacity / Profitronic D controls

* Residual moisture after hot final rinse, ** Cycle time in 'Cottons 60°C, hot water

Profitronic M controls

- 6 direct-access pushbuttons plus jog shuttle
- Freely programmable controls with 199 programme slots
- Broad range of programmes, many geared to specific applications
- Display with all information in local language, 11 languages
- Card reader

Highlights

- Simple door closure with OneFingerTouch
- Efficient use of resources thanks to modified design of suds container
- Extremely smooth running, even at high spin speeds, thanks to efficient suspension system.
- Optimum laundry care and cleaning thanks to patented honeycomb drum 2.0 with redesigned drum ribs.
- High wash performance thanks to optimised EcoSpeed wash rhythm
- Very low residual moisture levels on account of high g-factor
- High daily throughput through very short cycles

Optional accessories

- Plinths for ergonomic loading and unloading
- Retrofittable weighing plinth
- Operating data acquisition

- 6 direct-access pushbuttons plus jog shuttle
- Freely programmable controls with 199 programme slots
- Broad range of programmes, many geared to specific applications
- Display with all information in local language, 11 languages
- Card reader

Highlights

- Two-door barrier model for installation in diaphragm wall between two rooms
- Drum auto-positioning and locking at end of wash cycle
- Gentle and thorough fabric care with honeycomb drum
- Very low residual moisture levels on account of high g-factor
- High daily throughput through very short cycles
- Load-specific consumption through automatic weighing system

Optional accessories

- Plinths for ergonomic loading and unloading
- Operating data acquisition

MOPSTAR washing machines for contract cleaners

8 kg load capacity / M Select Mop controls

Mop Star

Washing machine	PWM 508 MopStar 80
User interface	M Select Mop
Load capacity [kg]	8
Drum volume [l]	73
Max. spin speed [rpm]	1,400
g-factor/Residual moisture* [%]	704/<25
Cycle time** [mins.]	49
Heating type	EL
Drainage [DP DN 22 / DV DN 70]	DV
Front colour / material	LW
External dimensions H/W/D [mm]	850/596/714

EL = Electric, DV = Drain valve, LW = Lotus white, enamelled, SST = Stainless steel
* Precise residual moisture dependent on mop, ** Cycle time in Mop Standard 60°C programme, cold water connection

M Select Mop controls

- Rotary control
- Programme symbols on control panel
- Touch display with all information in local language, 29 languages
- Numerous special programmes as standard, e.g. for cloths and mops
- Special disinfection programmes, including RKI-listed programmes, ensure reliable hygiene.

Highlights

- Exclusive to Miele: Gentle and thorough fabric care with new patented honeycomb drum
- Exclusive to Miele: Patented pre-spin cycle removes coarse soiling before the start of a wash cycle
- Optimum ready-to-use mops and cleaning cloths in just one composite programme cycle.
- Unobstructed drainage thanks to optimised design
- Installation as space-saving washer-dryer stack possible

Optional accessories

- Plinths for ergonomic loading and unloading
- Fluff filter box made from stainless steel to remove lint and coarser particles from wash liquor
- Dispenser modules for the automatic dispensing of liquid detergents

XCI box

- Communication unit for connection to dispenser pumps and energy management systems

BENCHMARK washing machines for coin-operated laundries

13-20 kg load capacity / Profitronic D SelfService controls

PERFORMANCE

Washing machine	PW 413 SelfService***	PW 418 SelfService***
User interface	Profitronic D SelfService	Profitronic D SelfService

EL = Electric, DV = Drain valve, * Residual moisture re. hot rinse in last rinse cycle, ** Cycle time in Cottons 60°C, hot water, *** Model versions without emergency OFF switch must be connected to a remote, easily accessible emergency OFF device. (DIN EN ISO 10472-1:2009-10 – Safety requirements for industrial laundry machinery - Section 5.2)

Profitronic D SelfService controls

- 6 direct-access pushbuttons
- 6 programmes typical for self-service applications
- Display showing all information in local language

Highlights

- Simple door closure with OneFingerTouch
- Efficient use of resources thanks to modified design of suds container
- Extremely smooth running, even at high spin speeds, thanks to efficient suspension system.
- Exclusive to Miele: Optimum laundry care and cleaning thanks to patented honeycomb drum 2.0 with redesigned scoop ribs

Optional accessories

- Plinths for ergonomic loading and unloading
- Payment systems for pay-by-use operation

Tumble dryers

7–40 kg load capacity

Miele Professional offers users of commercial dryers the largest selection of model types and heating methods on the market. These include space-saving SlimLine dryers which, thanks to their reduced width, negotiate narrow doors with ease. Alongside standard electric heating, clients can choose from gas- and water-heated models, as well as exceptionally low-consumption heat-pump dryers with a self-cleaning heat exchanger.

Benefits that pay off on a daily basis:

- High quality: The honeycomb drum ensures that all textiles are dried gently and uniformly.
- Precise: The patented PerfectDry system guarantees that fabrics are dried perfectly to the desired degree of drying
- Fast and economical: With the patented Air Recycling Plus process, around 60% of process heat is recuperated

More on heat-pump dryers with the patented StreamClean self-cleaning system is available on Miele Professional's YouTube channel.

SmartBiz dryer

Load capacity 7 kg / DirectSensor controls

Dryers	PDR 300 HP

- Payment systems for pay-by-use operation

Highlight: PWT 6089 Vario

- Space-saving washer-dryer stack occupying less than 0.6 m² floor space

SLIMLINE dryers

12–15 kg load capacity / Profitronic B Plus controls

Tumble dryers	PT 8303 SL G
User interface	Profitronic B Plus
Drying system	Vented
Load capacity [kg]	12 - 15
Drum volume [l]	300
Cycle time* [mins.]	33
Heating types	G
Heater rating G [kW]	18
Air intake/Vent	DN 150/DN 150
Front colour / material	Octoblue
External dimensions H/W/D [mm]	1,800/711/1,089

COP = Coin Operation, EL = Electric, G = Gas, HP = Heat pump, * Cycle time in Normal Dry programme, ** Contains FCs, hermetically sealed; Coolant R134a, Coolant quantity 1.35 kg, ODP of coolant: 1430 kg CO₂ e, ODP of machine: 1,930 kg CO₂ e,

Profitronic B Plus controls

- Rotary control
- Residual moisture controls for 12 programmes

Highlights

- The slim design, just 711 mm wide, fits in the smallest of spaces

Optional accessories

- Payment systems for pay-by-use operation

PROFITRONIC B Plus dryers

Load capacity 10–20 kg / Profitronic B Plus controls

Tumble dryers	PT 8253	PT 8333	PT 8403
User interface	Profitronic B Plus	Profitronic B Plus	Profitronic B Plus

EL = Electric, G = Gas, D = Steam, HW = Hot water, * Cycle time in Normal Dry

Profitronic B Plus controls

- Rotary control
- Residual moisture controls for 12 programmes

Highlights

- Exclusive to Miele: Gentle and uniform drying with new patented honeycomb drum
- Exclusive to Miele: Spot-on drying results thanks to PerfectDry system
- Low energy consumption and quick drying by recycling pre-heated process air

Optional accessories

- Payment systems for pay-by-use operation

Flatwork ironers

Working widths 830–1,660 mm

The feel-good factor offered by well-laundered bed linen, glossy tablecloths and serviettes – perfectly finished textiles – is a true reflection of the quality of hotels, restaurants and homes. Clients placing as much store by the finish of their laundry as on cleanliness can rest assured that guests, visitors and residents will feel at home.

Benefits that pay off on a daily basis:

- Convenient: The freely positionable FlexControl footswitch allows particularly flexible control of the ironer
- High-value: The patented EasyFold outfeed table allows ironed textiles to cool down effectively, fixing the finish in place

Learn more about high-performance flatwork ironers on Miele Professional's YouTube channel.

HM 16 rotary ironers

Working width 830 mm

Flatwork ironers	HM 16-80 D	HM 16-83
Roller diameter [mm]	160	160
Working width [mm]	830	830
Heater plate material	Aluminium	Aluminium
Throughput* at 20% residual moisture [kg/h]	13	15
Throughput* at 25% residual moisture [kg/h]	–	–
Heating type	EL	EL
Heater rating EL [kW]	2.60–3.10	2.70–3.30
Vent connection [DN]	–	–
Removal of laundry	At front	At front
External dimensions H/W/D [mm]	959/985/380	960/1,050/380

EL = Electric, * Figures as per DIN 11902. In practice, throughput is usually 20-40% below the quoted max. figures.
Actual throughput depends on the speed and experience of the operator, the type of laundry being ironed, the way it was sorted prior to ironing, the condition of the trough, and the standard of finish required.

Highlights: HM 16-80 D

- High-quality roller padding with polyester needle felt and ARAMID needle felt cloth
- Convenient controls with footswitch, adjustable temperature and roller speed
- Simple laundry finish with free roller end
- Steam function for efficient working and a perfect finish
- Fold-away design for simple storage on the smallest of footprints

Highlights: HM 16-83

- High-quality roller padding with polyester needle felt and ARAMID needle felt cloth
- Convenient controls with footswitch, adjustable temperature and roller speed
- Extremely robust rotary ironer with two pedestals and roller bearings at both ends

PM 12 flatwork ironers

Working width 1,000–1,400 mm

Flatwork ironers	PM 1210	PM 1214
Roller diameter [mm]	210	210
Working width [mm]	1,000	1,400
Heater plate material	Aluminium	Aluminium
Throughput* at 15% residual moisture [kg/h]	35	–
Throughput* at 25% residual moisture [kg/h]	26	33
Heating type	EL	EL
Heater rating EL [kW]	4.5	6.5
Vent connection [DN]	70**	70
Removal of laundry	At front	At front
External dimensions H/W/D [mm]	1,032/1,579/476	1,032/1,979/650

EL = Electric, * Figures as per DIN 11902. In practice, throughput is usually 20-40% below the quoted max. figures.
Actual throughput depends on the speed and experience of the operator, the type of laundry being ironed, the way it was sorted prior to ironing, the condition of the trough, and the standard of finish required.

Highlights

- Simple and convenient operation using large touch display
- Individual working height through adjustable machine feet and optional plinth
- Uniform pressure over the entire working width guarantees a perfect laundry finish
- High-quality roller padding with ARAMID needle felt cloth
- Exclusive to Miele: Freely positionable FlexControl foot switch
- Miele-specific outfeed table with honeycomb pattern and perforations and laundry box

PM 12 flatwork ironers

Working width 1,680 mm

Flatwork ironers	PM 1217
Roller diameter [mm]	250
Working width [mm]	1,660
Heater plate material	Aluminium
Throughput* at 15% residual moisture [kg/h]	–
Throughput* at 25% residual moisture [kg/h]	60
Heating type	EL
Heater rating EL [kW]	11
Vent connection [DN]	70
Removal of laundry	Front / rear**
External dimensions H/W/D [mm]	1,110/2,238/650

EL = Electric, * Figures as per DIN 11902. In practice, throughput is usually 20-40% below the quoted max. figures.
Actual throughput depends on the speed and experience of the operator, the type of laundry being ironed, the way it was sorted prior to ironing, the condition of the trough, and the standard of finish required.

Highlights

- Simple and convenient operation using large touch display
- Individual working height through adjustable machine feet and optional plinth
- Uniform pressure over the entire working width guarantees a perfect laundry finish
- High-quality roller padding with ARAMID needle felt cloth
- Exclusive to Miele: Freely positionable FlexControl foot switch
- Miele-specific outfeed table with honeycomb pattern and perforations and laundry box

Optional accessories

- Leaf-spring padding
- Laundry return feed

Miele Service & Support

Always on hand!

In line with Miele's philosophy of 'Immer besser', we guarantee the highest quality and production standards with our brand 'Made in Germany'. And when it comes to service, Miele Professional stands like none other for uncompromising performance. Even at the shipping stage, we assist with a comprehensive range of services and adjust machine settings to on-site requirements. Regular monitoring and maintenance by Miele Service guarantees maximum machine safety and durability.

Benefits that pay off on a daily basis:

- Economical: Reliable safeguarding of investments
- Long-termism: Functional spare parts remain available for 15 years after the termination of production
- Rapid response: Blanket service coverage for fast servicing on site
