**Miele Professional**

Dishwashing solutions  
for offices.

A range of reliable and cost effective  
dishwashing machines for offices of all sizes

## Introduction

**Breakfast, lunch breaks, meetings, appointments with clients, events – in modern business life, there is no shortage of reasons for serving tea or coffee, or leaving crockery to pile up in the kitchen.**

Miele Professional machines are renowned for their reliability, durability and efficiency, and are an ideal solution for the office or agency where costs and minimal downtime are key factors.

Quick, powerful and convenient – just as you imagine your ideal dishwasher should be. Small to medium size offices will welcome the convenient features of the ProfiLine freestanding, built-under and integrated machines, as well as the routinely spotless cleaning results. Larger

offices needing to wash up to 40 loads per day should look to our freshwater PG 8059

Miele Professional dishwashers excel in terms of extremely low consumption and are acclaimed for maximum efficiency. Products are designed to achieve perfect dishwashing results by using recyclable materials and no more water, energy and detergents than absolutely necessary

for wash cycles from 5 minutes, 85°C hygienic final rinse temperature and cheaper operating costs. But for the largest offices continuously needing clean glasses and crockery, you can't go past our PG8166 tank dishwasher and it's 55 second wash cycle that manages the busiest of periods with ease.

“

Working with Miele means that we have the assurance of working with the market leader, and we know that we are getting some of the most energy efficient products on the market. In addition, we can rely on comprehensive and reliable service support. I really can't recommend it enough.

## Freestanding or under-bench dishwasher

**Every day in offices and legal practices, car dealerships, boutiques and hairdressing salons, a small snack or a cup of coffee is part of the daily routine.**

Plates, cups, cutlery and crockery can build-up quickly and throughout the day. The PG 8130 handles small mountains of crockery easily and ensures that everything is clean and available again swiftly.

With its compact dimensions and easy installation, the PG 8130 is the ideal appliance for small kitchens. As a freestanding machine, the dishwasher can be positioned anywhere with access to water and drainage, and the hard-wearing laminate top offers additional counter workspace making it ideal for kitchens with limited space. Alternatively, by removing the lid, the PG 8130 can easily be converted to an under-bench dishwasher, perfectly integrating into an existing kitchen.

## Integrated dishwasher

### Fast, powerful, convenient – all attributes of the perfect small office dishwasher.

Despite being a commercial machine, you can expect many convenient features from our PG8130i dishwasher. The 'short' program cycle time is only 29 minutes and acts like a fully developed wash program, achieving 70°C in the main wash. Automatic door opening at the end of the wash programme ensures perfectly dry crockery, WifiConn@ct and the Mielepro@mobile app allows remote tracking of programs, monitoring and ordering supplies, and connection option for liquid detergent dispensers – the ProfiLine commercial dishwashers provide a wealth of handy features.

Simple to operate thanks to the clear fascia panel design, the PG 8130i seamlessly integrates with any office kitchen, staff or utility room. The panel under the fascia control can be matched to any kitchen cabinetry, alternatively, a CleanSteel or white door panel can be purchased separately for a simple and smart aesthetic.

ProfLine Integrated dishwasher	PG 8130i
Cycles per day	5
Shortest cycle time	29 minutes

“

I like the fact that Miele units are hardworking machines that are 'fit for purpose'. Whilst being powerful, the units are still very quiet during operation.

**Michael Cramp**  
Nespresso

“

We like that the machines are commercially appropriate and environmentally sustainable, and we have benefited the most from the reliability and leading edge technology.

## Fully integrated dishwasher

**Perfect integration into the office kitchen and premium surfaces – that is how a dishwasher should look.**

Our PG 8133 SCVi XXL dishwasher has extremely quick cycle time of only 22 minutes with hot water connection (using the 'short' program) and easily handles large amounts of cutlery. Cookery schools, active office kitchens or the self-employed will appreciate the extra large cabinet size and the 15 place setting, the patented 3D+ cutlery drawer and the outstanding technology of this Miele Professional dishwasher. Standard convenient features like comfort close that won't rattle and break your plates if you close the door in a hurry, the WaterProof anti-leak system that will protect you from water damage throughout the machines lifetime\*, and Brilliant Light with 4 LEDs to illuminate the entire interior cabinet for easy loading and unloading, makes our PG 8133 SCVi XXL the perfect choice.

“

We've come to rely on the machines computer log for audits. In addition to showing temperature and holding times within programme cycles, it displays consumption data, operating hours and the service schedule. The AutoOpen cool down is a great feature; not only does it completely dry the contents, but it greatly reduces the risk of steam burns.

## Freshwater dishwasher

**Miele's freshwater dishwasher, characterised by high throughput and short cycle times, is the product of choice in meeting the highest demands on cleaning quality and hygiene requirements.**

The priorities of an office dishwasher are different. Whether you need the ability to wash up to 456 plates per hour, require final rinse temperatures of 85°C for maximum hygiene, or you value the ability to use glasses straight from the dishwasher without polishing, our freshwater PG8059 will suit. Wash cycles in just 5 minutes with two intakes of freshwater in each wash, ensures the most stringent clean quality and hygiene requirements every time. With our simple-to-use controls, 13 programs and configurable baskets, this dishwasher will impress from day one.

## Tank dishwasher

**Tank dishwashers are the perfect choice wherever large mountains of crockery need to be washed in a short space of time.**

Their insatiable appetite for hard work has been taken to the next level by our new model PG 8166. Spotless glassware, perfectly clean crockery and sparkling cutlery feature specific programmes for all load types and degrees of soiling. This ensures delicate champagne cups are cleaned just as reliably and gently as plates with dried-on food residue. The PG 8166 combines high throughput capacity with superb efficiency. Even in the standard programmes, water, electricity and detergent is used extremely sparingly, and consumption is reduced to a bare minimum in the Eco cycle. The high-quality design means less maintenance is required and the machine lasts longer, making it the product of choice for clients with economic considerations. With its concise and easily visible touch display, this machine is easy to operate without mistakes, and an eye-catcher at all times.

“ We chose Miele due to the machines being reliable and high-quality construction.

**Shahab Tabrizi**  
 Simplot Australia

“

Until the installation of our Miele equipment, we had a reputation for churning and burning our machines with increasing regularity. We combined our Miele machines with an annual maintenance contract and they have continued to perform as well as they did when they were first installed.

## Office 360°

### The Miele Professional system for the office sector

True to the 'Forever better' principle, ensuring the highest of quality and production standards has pride of place at Miele. This is clearly evidenced throughout the entire process chain from the delivery of products to maintenance and machine repairs.

A Miele service network of Professional service technicians throughout Australia and New Zealand, means that help is available fast and without fuss. It

even starts with delivery as Miele's team of experts provides support in commissioning machines. Regular maintenance and inspections as well as professional care also ensures maximum safety in operation.

Thanks to the quality of Miele products 'Made in Germany', clients profit from extreme longevity and the availability of spare parts for up to 15 years – even if a machine is no longer listed.

## Dishwashing solutions for the office sector

---

### Quality

Since 1899, Miele - a family run company - has subscribed to a clear corporate philosophy condensed into the two words 'Forever better'. This far-reaching claim is the bedrock of Miele's proverbial quality and sustainability and the power of innovation of a brand 'Made in Germany'. A brand promise which gives commercial users the certainty of having chosen the right product.

### Performance

Although reliability is one of the major factors in choosing any Miele, it's comforting to know it's not at the expense of performance. All Miele dishwashing machines are designed, developed and tested to ensure optimum performance throughout the wash and dry process. Combining innovation and technology with Miele's legendary build quality produces a range of high performing machines that won't let you down.

### Efficiency

Economy and energy efficiency are closely linked and naturally important factors for the office sector. However, the savings gained from using less energy to achieve the same high quality results aren't just limited to costs, they also reduce the impact on our natural environment. And it's not just our carbon footprint that's small, our range of dishwasher machines are designed to be space efficient, so even the smallest of rooms can maximise throughput.
